

HIV prevention, treatment services and other aspects of care related to HIV. Presentation for Ukrainian refugees in Croatia. Frequently asked questions

Date: 20th of April 2023

Venue: WESPA, Incubator Hall, Zavrtnica 17, Zagreb

Agenda

The Conference is held within the framework of the Project: “Assessment of barriers to HIV prevention and treatment services that occurred due to the COVID-19 pandemic”

Purpose of the Conference: To allow HIV positive people in Croatia and in Ukraine together with the broader public to understand aspects of HIV prevention, treatment services and other aspects of care related to HIV. In such a way we would effectively communicate the problem and enable the Ukrainian refugees in Croatia to be informed and access HIV prevention and care services. Ukrainian public can also access the conference materials on-line.

Target groups: Ukrainians under the temporal protection in Croatia and a broader public in Croatia and in Ukraine.

Expected offline presence – approximately 100 participants

Expected online presence – approximately 1000 participants

Conference would be held in Croatian and Ukrainian languages, professionally recorded, uploaded and promoted through the social media (Youtube, Facebook, LinkedIn, internal portal of the Public Health Centre of the Ministry of Health of Ukraine).
