

Invitation to the 2nd European Biomedical and Veterinary Engineering Congress
Title: "Engineering for All of Us - How Engineering May Enhance the Well-being of Both Humans and Animals!"

Date: October 18-19, 2024

Location: Zagreb, Croatia

Dear Colleagues and Participants,

We are delighted to invite you to the 2nd European Congress on Biomedical and Veterinary Engineering (**BIOMEDVETMECH**). This transdisciplinary Congress will explore a wide range of scientific topics related to veterinary and biomedical engineering. Our program covers diverse areas, including:

- Development of medical and veterinary technology, Cutting-edge treatment techniques, Technologically advanced and targeted healthcare, Knowledge transfer and the future of biomedical engineering, Product development and innovation, Clinical research versus entrepreneurship
- Sessions: Neurosurgical and Neurological Engineering, Medical Robotics, Tissue and Regenerative Engineering, Pharmaceutical Engineering, Cardiovascular Engineering, Orthopaedic Engineering, Diagnostic Engineering, Biomedical Instruments, Health Informatics, Rehabilitation Engineering, Medical Biochemistry Engineering, Veterinary Engineering

Unique Features of BIOMEDVETMECH 2024:

Advanced Program: Our Congress offers an advanced program that includes group work with specialized experts, exhibitions by suppliers and manufacturers, and workshops and trainings. These sessions aim to enhance the skills and competencies of all conference attendees.

Industrial Corner: We have created an industrial corner where industry professionals and scientists can collaborate to fund and develop new products and services for the welfare of both humans and animals.

Zagreb, Croatia: The Congress will take place in Zagreb, the stunning capital of Croatia. Situated at the geographic, cultural, historical, and political intersection of Eastern and Western Europe, Zagreb combines the energy of continents and the Mediterranean to create a singular whole. Its rich history, diverse gastronomy, vibrant artistic scene, and warm hospitality make it an ideal location for our Congress.

BioMedVetMech 2022 Success: Building on the success of BioMedVetMech 2022, which achieved its goals and brought together professionals from various fields, we are excited to continue fostering collaboration and knowledge exchange.

We extend a warm welcome to you, confident that BIOMEDVETMECH 2024 will serve as a foundation for acquiring new skills, meeting international experts, and forming lasting connections.

Sincerely yours,

Dr Petra Bonacic Bartolin,
Imperial College London
Founder/organizer of the Congress

Notification for Physicians: The Croatian Medical Chamber has awarded the Congress with 20 points for active participation and 12 points for passive participation.

We look forward to your active involvement in this exciting event!
